

# Scientific, Engineering & Technical Assistance (SETA) Services

Alaska Native Corporation | SBA 8(a) Certified Minority Small Disadvantaged Business

Jadin Tech, LLC helps our customers succeed by providing affordable Scientific, Engineering and Technical Assistance (SETA) subject matter experts to the Federal Sector with a focus on DoD PEOs, Program Managers, and Foreign Military Sales across the Services. Our scientific and technical subject matter experts (SME) use leading technologies, industry standardized processes, and years of experience to provide our customers with the highest quality mission solutions at reduced risk and cost.

We provide acquisition support to Federal Program Managers and Contracts Managers to help them meet their mission requirements. We offer Acquisition Support Services to the Department of Defense and other Federal agencies. DoD core manpower profiles indicate a shortage of expert acquisition personnel well into the future. Jadin Tech helps provide manpower solutions in acquisition and technical areas to fill immediate needs.

Our personnel bring diverse skill sets and experience needed by Program Managers in Contracting, Engineering, Logistics and Budget Execution that allow our customers to meet their mission, on budget and on time.
